

Bar options for rooftop contracts:

There are no beverage minimums associated with rooftop contracts, therefore the bar can be handled in a few different ways including hosting beer and wine, hosting a full bar, or having your guest be responsible for their own drinks as a cash bar. The size of your group as well as the decision on how to handle the bar will determine what area of the roof will be reserved for you. With groups of 20 or less, on Sunday-Thursday we can accommodate both hosted beer and wine or hosted full bar options in the point. For groups of more than 20 or weekend events we are only able to accommodate hosted beer and wine service in the point. To ensure prompt service, all cash bar or hosted full bar on the weekends will be placed at the high top/bar area with food service and additional gathering space in the early 500's.

If you choose one of the hosted bar options, you will need to consider if you would like to leave the bar completely open or put a limit on it by using drink tickets. Either way, you will only be charged based on consumption. For example, if you request 60 drink tickets for your group but only use 40 of them then you will only be charged for 40 tickets.
